Kaeser Compressors will expand Spotsylvania facility

Kaeser Compressors Inc. plans a 50,000-square-foot expansion at its Spotsylvania County facility off Lansdowne Road.

Kaeser plans to build additional warehouse space onto the back of the existing warehouse on its 22.5-acre Spotsylvania property, the company announced this week. Construction is expected to start this fall.

Kaeser sells and services industrial compressed air equipment throughout the United States. The Spotsylvania plant is its U.S. headquarters and includes almost 170 workers involved with sales, marketing, training, testing, shipping, assembly, accounting, human resources, quality control and more.

In 2009-2010 Kaeser built a 17,000-square-foot office addition there. After the warehouse expansion is completed in mid-2015, the company's Spotsylvania facility will be nearly 160,000 square feet.

The expansion will allow Kaeser to stock more inventory for its growing U.S. customer base and improve its packaging and shipping operation, the company said.

"We are proud of our growth and success," Company President Frank Mueller said in the announcement. "We have been a good neighbor, and will continue to play a positive role in Spotsylvania County and the Fredericksburg community."
