

Mechanicsville, Virginia

Over the last 6 years, McKinney and Company has been working with Carter Machinery (a leading Catapillar dealer in the USA) on over \$6 million dollars worth of full-service design / build work. These services have included wetlands and geotechnical studies, master planning, civil, mechanical, electrical and plumbing engineering, structural design, construction management, general contracting, and complete renovations and additions.

Located in Hanover County, Virginia, McKinney and Company has provided additional planning, design, and construction services for Carter in Salem, Virginia. This relationship with Carter Machinery represents the quality of full-service, long term, and client oriented capabilities of the McKinney and Company team.
