

Richmond, Virginia

Preliminary Perspective Sketches

McKinney and Company provided a full range of services for Virginia Blood Services (VBS) a non-profit agency originally exploring options for consolidating and updating their production facilities and administrative offices. The full range of services range from site search/selection, due diligence, building programming, and full-service design for an approximately 60,000 SF building, including a 13,000 SF laboratory. Building construction is underway.
